

## SHELLING EXCURSIONS AND DOLPHIN & MANATEE ECO-TOURS

Experience the relaxing and cool Gulf waters aboard the Calusa Spirit! Our 49 passenger Power Catamaran departs directly from the sugar sand beach of your hotel and transports guests to a whole new world - the 10,000 Islands! This ecosystem is comprised of thousands of mangrove estuaries, and is full of beautiful and unique wildlife. The Calusa Spirit calmly navigates the backwaters in search of dolphin, manatee, and bald eagles - and upon arrival at Cape Romano, guests can explore the secluded beach in search of the most ornate seashell treasures!

The Calusa Spirit (this boat runs under motor not sail) is complete with onboard facilities, enough room for 49 passengers and offers beverages and light snacks for purchase. This boat does come up close to shore but remember you will walk in the water at some point to board so please dress appropriately in beach attire.

Although the standard tour time is 2½ hours, the boat can be rented exclusively by the hour and customized tour packages can be created to meet your group's needs. The cost of a private charter for a maximum of 49 passengers runs \$695++ per hour with a 2 hour minimum. We can depart directly from the hotel beach or many other locations around Marco Island and Naples. Dead head fees will be added for Naples locations. We handle all the planning so you can enjoy every minute of the unique adventures that build and enhance camaraderie within your group.

We look forward to creating your group's program, and many unforgettable memories.

Have a wonderful day!
